Commissioner for Patents

Case 09/543,164 has been remanded from the board in order to match a missing artifact folder to the case. Upon search of central files, the artifact folder was found to be missing. A call was made to Applicant's representative to ask if they had submitted any artifacts. Their response was that no artifacts appeared to have been filed by the Applicant. The Examiner, upon looking at the file, concluded that the missing artifact was most likely a plus search computer disk. Therefore, the plus search has been re-constituted and placed in the file by hand carrying it to the Board of Appeals on the same day as the filing of this communication.
